Dear Hiring Manager,

I am writing this to express my interest in MERN Stack Developer position. Proficient in the MERN stack—MongoDB, Express.js, React, Node.js—with a strong enthusiasm for developing dynamic and user-centric web applications, I am eager to work with the team in helping innovate projects.

I recently finished my bootcamp training at brototype which I have gained the knowledge in MERN stack. Also I have done two major and different small projects that enhanced my skills in javascript, Node js, Express js, Mongo db and React. The two projects where designed, developed and maintained as full stack application. I developed hands-on skills in creating RESTful APIs with the ability to implement authentication and authorization and manage state effectively with React's context API. I've completed Data Structures and Algorithms (DSA) with practical's in JavaScript. I developed hands-on skills in creating RESTful APIs with the ability to implement authentication and authorization and manage state effectively with React's context API.

I have developed several applications using Mongo for database management, Express.js for server-side logic, React for building user interfaces, and Node for server-side scripting. Front-End Development: Proficient in HTML, CSS, JavaScript, and principles of responsive design. Developing interactive user interfaces with React.js and ensuring proper state management of a variety of components. Back-End Development: Developing secure and scalable server-side applications using Node.js and Express.js.

In the brototype journey I have completed two full stack project which first one is an ecommerce application and the second one is school management system . first project is developed with javascript,html,css,Node js , mongo db and express js . in my second project I have used React as my front end frame work

I would happy to accept to join with the esteemd group. I am very enthusiastic and eager to join the company to use my skills for the growth of the company and personal as well.

Sincerely ,

Binel Biju
